

Notice from Kagoshima Prefecture

Nuclear Emergency Response Drills will be Executed on February 10 (Saturday)

Sponsors

Kagoshima Prefecture, Satsumasendai City, Ichikikushikino City, Akune City, Kagoshima City, Izumi City, Hioki City, Aira City, Satsuma Town, and Nagashima Town

Purpose

- In accordance with the National Nuclear Emergency Response Guidelines and evacuation plans formulated by Kagoshima Prefecture and the relevant municipalities, we will be conducting comprehensive drills in collaboration with the national government and business operators for the purpose of raising awareness of disaster preparedness among local residents and strengthening cooperation among the relevant organizations.
- We will further improve and strengthen the nuclear emergency response measures by reviewing the evacuation plan based on the lessons learned from the drills.

Features

- Evacuation drills for the residents in PAZ (within a radius of approx. 5 km from the nuclear power station) and UPZ (within a radius of approx. 5-30 km from the nuclear power station) will be conducted separately
 - The drill will be conducted in one day, cutting the time needed for the progression of the accident.
 - Drills that include evacuation exercises will be conducted at 8:35 a.m. and 10:10 a.m. for PAZ residents and UPZ residents, respectively.
 - In general drills, evacuation exercises will be carried out on the assumption that spatial radiation dose rates have increased in some areas of Satsumasendai City and Hioki City within the UPZ.
 - In drills for individual areas, contact and communication drills, evacuation drills, and evacuation guidance drills will be conducted in each municipality
- Public announcement exercises and evacuation drills using the nuclear emergency response app will be carried out.

Date and Time

February 10, 2024 (Saturday) 7 a.m. to 6 p.m.

Main Drills

- Establish emergency response HQs for the prefecture and municipalities
- Set up and operate an off-site center
- Report abnormal events, conduct communications between relevant organizations
- Implement emergency monitoring, collect and assess the measurement results
- Implement evacuation screening, distribute stable iodine tablets, provide dosing instructions for the tablet
- Dissemination of information using the government disaster prevention radio system, public announcement cars, and the nuclear emergency response app
- Evacuation of and evacuation guidance to the residents in coordination with the relevant organizations, sheltering at evacuation shelters on the assumption of house collapse
- Reception at temporary assembly sites and issue of passes at time of evacuation screening

Request

On the day of the drills, a public announcement exercise will be carried out using the government disaster prevention radio system or public announcement cars; therefore, training officials and participating vehicles will operate. We appreciate your understanding and cooperation.

Satsumasendai City and Ichikikushikino City notifications will also be issued via emergency warning emails.

If you have a mobile phone that is configured to receive emergency warning emails or installed with the nuclear emergency response app, please note that test notifications will be sent to your phone as part of the drills.

The Kagoshima Prefecture Nuclear Emergency Response App will be used in this fiscal year's Nuclear Emergency Response Drills!

1 What is the Kagoshima Prefecture Nuclear Emergency Response App?

▶ Launched in April 2022, this app allows you to view information about evacuation and other responses in the event of a nuclear emergency.

▶ The app allows you to carry out procedures at evacuation shelters smoothly using a QR code.

2 How can you use the Kagoshima Prefecture Nuclear Emergency Response App?

▶ Receive notifications regarding evacuations from your municipal office.

▶ Check spatial radiation dose amounts measured at the monitoring post closest to you.

▶ Search for evacuation routes from your current location.

▶ Check in and register quickly using the QR code.

3 In preparation for the Nuclear Emergency Response Drills ...

① Please install the Nuclear Emergency Response App.

▶ Either scan the QR code below or search for the Kagoshima Prefecture Nuclear Emergency Response App in the app store. If you do not have a smartphone, you will be handed a sheet of paper printed with the QR code when you check-in at reception. On the day of the drills, you will also use this sheet of paper for reception and registration procedures.

Android users, please tap here.

iPhone users, please tap here.

② Please register your name, address, and other required information.
